CARDINAL SAILS TODAY. Carlinal G bbons arrived at Queens town yesterday from London. He will Cherrystone Oysters on Half Shell. be the guest of the Bishop of Cloyne until t day, when he will embark on the stramer Carcuia for New Yrk. The cardinal was met on his arrival at the railroad station by the members of the city council and a number of other persons prominent in Quientiwn and pre-

sented with an address of welcome.
In an interview Cardinal Gibbons said he felt there would be no of jection in the United States, such as reised in Lon-don, to the carrying of the Sacred Host through the a rects. Common sense, he continued, should cause the repeal of the statuts which prevented the procession as planned in England. Catholics would not be afraid to hold a procession of the Blessed Sacrament in New York, Boston, Baltimore, Poiladelphia er Chi-

With regard to the coming presiden tial election in the United States, the cardinal said that it would be fought out with ballots, not bullets. The peopl would record their vites pesceably and all would be reconciled aft r the fight, to metter who wor. That was the gre t feature, he added, of American

Cardinal Gibbons was ent risined at a farewell dinner yesterds y evening by the Most Rev. Robert Browne, bishop of the Diocese of Cloyne.

DOCTORS DISAGREE.

Whether the human being can be in fected with pulmonary tuberculosis through transmission of bacilli from infected cattle was the one, the all absor ing, topic of discuss'on which yesterday rent the International Congress or Tub-erculosis in session in Washington The question was the rock on which the delegates split.

Two masters of medical science and leaders in the discussion. Dr. Robert Koch, Germany's foremost scientist, and Dr. F. Arloing, professor of the faculty of medicine, of Lyons, France, and one of the leading authorities on tuberculo-sis in his country, hold such widely divergent views that the differentiation between animal and bovine tuberculosis is by no means settled in the minds of the majority of the delegates.

It sppeared to the observer that the preponderance of opinion was against Dr. Koch in his declared belief that "up to date in no case of pulmonary tuber-culosis has the tubercle bacillius of the bovine type been definitely demonstra-

In this view Dr. Koch is combated by Dr. Arloing, who declares he is a "stanch adherent of the doctrine of the unity of the tubercle bacillius."

In an informal talk before members o the congress. Prof. Dr. Koch, Europe's foremost tuberculosis expert, decisred that the methods employed by the health department of New York city were so far advanced as to be a model for the world.

Dr. Detre's and Dr. von Perquet's inoculation to diagnose early stages of con-sumption has been tested on ten children at the Children's Hospital, and wa pronounced satisfactory to them.

PRESIDENT TO HUNT ALONE. Rough Riders and trappers who have been looking forward to the president's African trip as an occasion in which they would play a part will be disap-pointed. The president has no inten-tion of having anybody accompany him official staff, as the president intends to send back such specimens as the museum

may want to preserve. No definite intinerary has been ar ranged. The caravan will be mustered in after Mr. Roosevelt reaches the Afrithat official or dignitary are premature.

A Traveling Man's Experience.

"I must tell you my experience on an east bound O. R. & N. R. R. train from Pendleton to Le Grande, Ore., writes Sam A. Garber, a well known traveling man. 'I was in the smoking depart-ment with some other traveling men when one of them went out into the coach and came back and said, 'There is a woman sick unto death in the car.' I at once got up and went out, found her very ill with cramp colic; her hands and arms were drawn up so you could not straighten them, and with a desth-like look on her face. Two or three

ladies were working with her and giving her whisky. I went to my suit case and got my bottle of Chamberlain's Colic, Cholera and Diarroea Remedy dies to let me give it to her, but I succeeded. I could at once see the effect and I worked with her, rubbing her hands, and in twenty minutes I gave her another dose. By this time we were almost into Le Grande, where I was to leave the train. I gave the bot'le to the husband to he used in case another dose should be needed, but by the time the train ran into Le Grande she was all right, and I received the thanks of every pessenger in the car.'
